7 Trees Planted for each Booking

This trek is the shorter version of Annapurna Circuit around Annapurna massif. Half Annapurna Circuit or Mini Annapurna Circuit trek in Nepal includes the crossing of the high pass called Thorong La at 5,416m.

This Annapurna trek is one of the classics of the world. Trekking Annapurna offers a cross section of Nepal Himalaya. The mountain views throughout encompass some of the highest peaks in the world. They include Lamjung, Himalchuli, Manaslu, Dhaulagiri, Annapurna and Machapuchare. We included this trek in our choice of [7 Best Annapurna Treks in Nepal](#).

The Annapurna trail starts several hours driving beyond Besishar town at the village of Jagat. We hike through Gurung villages surrounded by terraced fields in Marsyangdi valley. The trail enters pine forest and higher up into the alpine zone. There has been debate about the recent road construction in the Annapurna region. It is still worth trekking the Mini Annapurna Circuit trek as [it is possible to avoid walking on the road](#). By hiking on alternative trails you will enjoy the experience on this classic trek.

We follow Natural Annapurna Trekking Trails (NATT) where possible. We organised a recce trek following NATT for outdoor journalist, Terry Adby. Take a look at his article on the British Mountaineering Council (BMC) website called [The New Way: Trekking Nepal's Annapurnas](#).

After Pisang village, we enter a Buddhist region. You will see colourful prayer flags, mani walls and

monasteries along the way. We spend three nights at Manang for essential acclimatisation. During the days we explore the area around Manang walking to the Ice Lake and Khangsar village. The high point is the day crossing the Thorung La at an altitude of 5,416m. After crossing the pass we enter Upper Mustang and this is an arid landscape in the Himalayan rain shadow. We walk down the Kali Gandaki valley located between Annapurnas and Dhaulagiri.

This trek is a lodge based trek where you stay in the local tea houses along the way. Other lodge trips in Nepal include [Everest Base Camp](#) trek and [Annapurna Base Camp](#) trek.

Take a look at our Blog article [Annapurna Base Camp versus Annapurna Circuit in Nepal](#). This explains the similarities and differences of these treks in the Annapurna region of Nepal.

REASONS TO CHOOSE US

- For better acclimatisation and to prevent altitude sickness we organise a longer trek. We stay for three nights in Manang at 3,500m. The gradual ascent profile for this trekking holiday has worked well for our past group.

Importantly, we clearly define what dishes and drinks we provide so there is no confusion in terms of what is allowed. Given the amount of food and drinks we include, there should be no need to spend any extra money on additional food.
- We are Himalayan trekking specialists having operated trips in Nepal for many years. [Roland Hunter](#) has designed the itinerary from his first-hand experience of this trek.
- Our [AITO Traveller Reviews for Half Annapurna Circuit](#) have a holiday rating of 100%. Based on client feedback we won the 2018 Gold Award as AITO Tour Operator of the Year. Read more about our [Testimonials and Awards](#).

ITINERARY

DAY 1: ARRIVE IN KATHMANDU (1,400M)

Arrive in Kathmandu

No meals

Hotel Ambassador in Kathmandu

Flying into Kathmandu along the northern border of Nepal on a clear day is in itself an unforgettable experience, with the entire Nepalese Himalaya sprawling out below you. After customs, you will pass out of the restricted area and into the passenger pick-up area outside the building. You will see a Mountain Company signboard and our representative will be waiting to welcome you to Nepal.

After transferring to your hotel, you will be given a chance to catch your breath and then be given a full briefing. The rest of the day will be yours to explore and to shop for any items that you require. Today you will hear the Nepalese word for hello 'Namaste', you will probably never forget that word after this trek.

DAY 2: DRIVE TO JAGAT (930M)

Drive to Jagat (10 hours)

Breakfast, Lunch and Dinner

Teahouse lodge

We leave Kathmandu early in the morning by private bus. It is a scenic drive with occasional glimpses of mountain peaks. At Dumre we turn off the Pokhara highway. We drive north following Marsyangdi River to Besisahar. We drive beyond this town passing a new hydro-plant built at Bhulbule by the Chinese. We arrive at Ngadi and change vehicles from our bus to local jeeps. We continue the drive to Jagat where we camp in the garden of a lodge.

During the months of April, May and October it will be very hot and humid. The temperatures can be more than 30 Degrees Celsius for the first few days of the trek. We have chosen the months that are likely to

have optimal conditions for crossing the Thorung La. It is important to bring plenty of water, wear a sun hat and apply sun cream.

DAY 3: TREK TO DHARAPANI (1,940M)

Walking 14km (7 hours)

Breakfast, Lunch and Dinner

Teahouse lodge

Shortly after leaving Jagat there are views of the 200m waterfall at Chamje. We descend to the river and cross over a bridge to return to the quieter East side of the valley. There is a new walking trail called NATT around the Annapurna Circuit away from the jeep track. Along the way we see small farms and terraced fields. We follow a path of stone steps climbing up and descending the spurs along the valley. The trail passes through huge boulders fallen from the mountains above. There is a steep ascent on a good trail to the beautiful and colourful village of Tal. After about four hours walking we stop for lunch at Tal.

After lunch there is a section of the trail along the base of a cliff next to the Marsyangdi River. After about a three hours walk we arrive at Dharapani at an altitude of 1,940m. There are several shops and lodges in this village.

DAY 4: TREK TO CHAME (2,700M)

Walking 14km (7 hours)

Breakfast, Lunch and Dinner

Teahouse lodge

From Dharapani we climb up to the village of Bagarchap. Then we walk through the forest following the river to Chame. Today, there are great views of Annapurna II (7,937m) and Lamjung Himal (6,932m) up the valley. If you look back you will be able to see Manaslu (8,154m) and Peak 29 (7,833m).

DAY 5: TREK TO PISANG (3,190M)

Walking 14km (6 hours)

Breakfast, Lunch and Dinner

Leaving Chame you pass some mani walls and a little further there is a water-turned prayer wheel. After the suspension bridge the valley widens and Pisang Peak (6,091m) becomes visible.

DAY 6: TREK TO MANANG (3,500M)

Walking 15km (7 hours)

Breakfast, Lunch and Dinner

Teahouse lodge

We take the high level route to Manang taking 7 hours. There is also the option to take the low route taking only 5 hours along the valley floor. The high route starts by crossing the river outside Pisang. We follow a path which passes by a lake and a long mani wall. There is a long climb along a switchback path to the village of Ghyaru. We will stop at one of the tea houses and enjoy the stunning view of Annapurna II and IV. From Ghyaru we follow a high traverse to the next village called Ngawal. Finally you descend back to the valley floor and rejoin the main trail to continue to Braga and Manang.

DAY 7: DAY WALKS FOR ACCLIMATISATION AROUND MANANG (3,500M)

Breakfast, Lunch and Dinner

Teahouse lodge

It is important to have an extra few days in Manang help acclimatisation to the high altitude. This will help us as we start the climb towards the Thorong La. There are lots of options for day walks around Manang. One possibility is to walk to Khangsar village on the way to Tilicho Lake or a longer walk to Ice Lake above Braga. It is well worth visiting the gompa above Braga. It is also worth attending the Himalayan Rescue Association afternoon lecture. This gives useful information about altitude and acclimatisation.

DAY 8: DAY WALKS FOR ACCLIMATISATION AROUND MANANG (3,500M)

Breakfast, Lunch and Dinner

Teahouse lodge

It is important to have an extra few days in Manang help acclimatisation to the high altitude. This will help us as we start the climb towards the Thorong La. There are lots of options for day walks around Manang. One possibility is to walk to Khangsar village on the way to Tilicho Lake or a longer walk to Ice Lake above Braga. It is well worth visiting the gompa above Braga. It is also worth attending the Himalayan Rescue Association afternoon lecture. This gives useful information about altitude and acclimatisation.

DAY 9: TREK TO YAK KHARKA (4,090M)

Walking 9km (4 to 5 hours)

Breakfast, Lunch and Dinner

Teahouse lodge

Today is a shorter walk taking about 3 to 4 hours. By having a gradual ascent towards Thorung La helps your body adapt to the high altitude. It is a good idea to go for an afternoon walk. This helps the acclimatisation process by "climb high, sleep low". You can either walk up the valley and back to the lodge or climb the ridge behind the village.

DAY 10: TREK TO THORONG PHEDI (4,490M)

Walking 6km (4 hours walking)

Breakfast, Lunch and Dinner

Teahouse lodge

Today is another short day of about 3 to 4 hours walking. Leaving Yak Kharka we pass through a few lodges at Letdar. After crossing the river there is a climb to Thorong Phedi. In the afternoon it is a good idea to go for a short walk.

DAY 11: CROSS THE THORONG LA PASS (5,416M) AND TO MUKTINATH (3,800M)

Walking 12km (8 to 9 hours)

Breakfast, Lunch and Dinner

Teahouse lodge

We leave Phedi at first light for the challenging walk over the Thorong La at an altitude of 5,400m. The trail is on undulating terrain and after about 4 to 5 hours we should reach the pass. From the summit of the pass there are spectacular views of the Annapurna Range to the south. We can see Mukat Himal bordering Dolpo to the West. As we descend on the other side we see Annapurna (8,175m) and Tukucho Peak (6,920m). The descent to Muktinath is quite steep and will take between 3 to 4 hours. It is a good idea to use walking poles to help in case of a slippery path if there is still snow (depends on the time of year). Poles also take the strain off your legs and help to protect knees. We also include micro crampons on the kit list in case there is snow and ice on the trail.

DAY 12: TREK TO JOMSOM (2,700M) VIA LUPRA VILLAGE (2,790M)

Walking 19km (6 hours)

Breakfast, Lunch and Dinner

Teahouse lodge

Before you set off it is well worth going to visit the important temples above the village of Muktinath. Many Hindu pilgrims travel to visit this temple where there are 108 water spouts. Below Muktinath, the trail passes through a beautiful arid landscape. This is in the rain shadow of the Himalayas and is different from the green and lush vegetation at the start of our trek.

Today, we follow the NATT trail away from the road where possible. Leaving Muktinath on the road, we turn off onto a trail at Ranipauwa then contour around the hillside with some ups and downs. At Lubra Pass (3,772m) there are fine views of Dhaulagiri, Tukucho, and Dhampus Peak. It takes about 2 hours of walking to reach Lupra. Unusually there is a Bonpo (pre-Buddhist) monastery in this village, this religion is more common further West in the Upper Dolpo region. After descending to the valley floor we follow the Kali Gandaki River for a further two hours to reach Jomsom. On most days this valley has strong winds in the afternoon. Having a Buff scarf is helpful to protect your face from the dust.

DAY 13: FLY TO POKHARA AND KATHMANDU

Fly to Pokhara & Kathmandu

Breakfast

Hotel Ambassador in Kathmandu

We take an early morning flight to Pokhara and then connect to another flight to Kathmandu.

Important note: there is a significant safety risk when flying on airlines in Nepal. If you would like to avoid the STOL flight from Jomsom to Pokhara there is an option to extend your trek by walking out. The hike to Beni takes three days followed by a 4 hour's drive to Pokhara. A public bus from Jomsom to Pokhara takes one day if there are no delays along the way. If you would like to avoid the flight from Pokhara to Kathmandu there is an option to drive and this takes about 6 to 7 hours (depending on the traffic). There are also safety considerations with driving in Nepal and road traffic accidents happened from time to time. For information about the flight risk in Nepal read our Trip Dossier. The relevant sections are "Threat and Risk Assessment" and "Jomsom STOL flight". Please get in touch with us if you would like to discuss this further.

DAY 14: SIGHTSEEING IN KATHMANDU

Sightseeing in Kathmandu

Breakfast

Hotel Ambassador in Kathmandu

This is a one day guided sightseeing tour of the Kathmandu Valley. We visit three out of the seven World Heritage Sites. You will start off by visiting Patan Durbar Square. Then drive to the Buddhist stupa at Boudhanath. Our last stop of the day is at the Hindu shrine of Pashupatinath. The tour is likely to finish around 4pm and the rest of the day is free to further explore Kathmandu.

Three major towns in the valley, Kathmandu, Patan and Bhaktapur. Each place has a great artistic and architectural traditions. Kathmandu is the capital and the largest city in the country. Patan, the second largest separated from Kathmandu by Bagmati river. Bhaktapur, the third largest, is towards the eastern end of the valley. Its relative isolation reflected in its slower pace and more medieval atmosphere. In Kathmandu there is a bustle of activity especially in the bazaars and markets. While the city has expanded over the last 10 years it is still possible to see traditional buildings.

DAY 15: DEPART KATHMANDU FOR FLIGHT HOME

Fly home

Breakfast

Transfer to Kathmandu airport for the flight back home. End of trip.

PRACTICAL INFORMATION

A Typical Day On Trek

TYPICAL DAY ON A TEAHOUSE TREK IN NEPAL

We provide a comfortable experience on our teahouse lodge-style treks. Our team works hard to support you so that you can relax and enjoy [trekking in Nepal](#). The lodges provide your meals in a communal dining room. You will sleep in private rooms with a shared bathroom. There is a range of standards and service in teahouse lodges depending on location. i.e. lodges at higher altitudes and places with fewer

trekkers tend to have more basic facilities.

The day starts with getting up in your room shared with another trekker in our group. Before heading for breakfast you pack your overnight gear into your main bag (this could be a duffel, kit bag, or rucksack). You would have given your breakfast orders to the guide to pass onto the kitchen last night. At the designated time the group will assemble in the dining room to eat breakfast. Breakfast includes cereal, porridge, or rice pudding and an egg dish with bread or toast plus two cups of hot drinks such as tea, coffee, or lemon ginger honey.

While the group is having breakfast the porters arrange their loads and set off in the cool of the morning. After breakfast, between 7am and 8am, we start walking. The pace of the trek is moderate as there is plenty of time in the itinerary to reach the lodge for tonight. Enjoy the scenery, take photos, and explore the local villages. Lunch will be around midday at a teahouse lodge by the side of the trail. This includes one dish such as fried rice, dal bhat, momos, or pasta plus two cups of hot drinks.

After lunch, we continue the walk and on most days we arrive at the lodge around mid-afternoon. On arrival, you will get a hot drink and biscuits. For dinner, you get a two-course dinner (soup and main meal). The menus are quite standard with a range of dishes such as dal bhat, momos, and the famous Sherpa stew. Dal bhat is a Nepalese dish of rice and lentils with vegetable curry. It is also possible to order spaghetti and pasta; pizzas; vegetable burgers and chips and fried rice. We also provide up to two cups of hot drinks per meal.

After supper, the leaders will discuss the plan for the next day. Afterward, people might stay in the dining room chatting about the day's events or playing cards. After a tiring day, most people head to their rooms quite early for the night. Tomorrow is likely to be very similar to today!

You can read more about [Teahouse Trekking in Nepal](#) on our Blog. This article explains the facilities available at a teahouse lodge. It also describes the advantages and disadvantages of camping-style treks. Plus the amount to budget for extra costs. We also touch upon what to pack for a teahouse trek, safety, and security plus responsible use of the lodge.

Meal Plan

MEAL PLAN

We include all meals at the teahouse lodges (breakfast, lunch, afternoon tea, and dinner) while on the trek. Importantly, we clearly define what dishes and drinks we provide so there is no confusion in terms of what is allowed. Given the amount of food and drinks we include, there should be no need to spend any extra money on additional food. However, some people will pay for extra treats along the way such as to get cake and a coffee at the bakeries and cafes!

If you are comparing our prices with other operators you should be careful to compare apples with apples. These days many operators do not include meals in their packages when staying at the teahouse lodges. The food at the lodges is expensive and will cost an average of £25 (US\$35) per person per day. If you are paying for the meals directly to the lodges you would need to carry a lot of cash including the tip money too. Having this amount of money with you will be a security risk and for peace of mind, it is better to pay for the meals to us when booking the trip. Also, it will be difficult to know in advance how much cash to bring with you on the trek (there are no ATMs when on trek). Furthermore, in practice, it will be complicated and time-consuming for you and the guides to work out individual bills after checking out each day from the lodge.

With our meal plan, you can select your dishes from the menu at the lodge. In our package, we include the cost of your breakfast, lunch, afternoon tea, and dinner. Breakfast includes cereal, porridge, or rice pudding and an egg dish with bread or toast. Lunch includes one dish such as fried rice, dal bhat, momos, or pasta. For afternoon tea, you get a hot drink plus biscuits. Dinner is two courses including soup and the main dish chosen by you from the menu. You are allowed two cups of hot drinks per meal so this means a total of seven cups per day.

We cater to a variety of dietary requirements. There are always meals that are suitable for vegetarians.

During booking, we find out if you have any dietary needs and agree upon meal plans before departure. If you have any questions about the food provided please get in touch with us to discuss further.

Communications

COMMUNICATIONS

We bring a Thuraya satellite phone for logistical, safety and personal use. Personal calls charged at £4 (US\$5 or €4.50) per minute and £2 (US\$3 €4.50) to send and receive SMS text.

Kit List

KIT LIST FOR ANNAPURNA CIRCUIT

At the start of the trek you will experience hot and humid conditions with temperatures up to 25 Celsius. You experience the coldest temperatures in Thorung Phedi at an altitude of 4,490m. Overnight lows here will be down to around -12 Celsius.

You should bring a rucksack or backpack for gear required during the day. Your pack should contain items such as warm clothes, jacket, camera, water bottles, personal first aid kit and snacks. **The weight limit is 5kg.** A porter will carry the rest of your personal equipment packed in a duffel or kit bag. **The weight limit for your duffel bag is 15kg.** Please mark your bag on the outside for easy identification.

Print the kit list and tick items off as you pack them then weigh your kit bag before you come on trek.

- Stuff sacks for keeping your gear dry and organised. Or even better are fold dry bags such as from Exped.
- Two water bottles. Nalgene wide mouth bottles are the best. You may use a hydration pack lower down but the tube will freeze in the cold so ensure you still have two water bottles.

Threat and risk assessment

RISK ASSESSMENT FOR ANNAPURNA CIRCUIT

You should be aware trekking in a developing country involves a risk of personal injury or death. You must accept these risks and be responsible for your own actions and involvement. Adventure travel requires an open and flexible attitude. You may experience extreme conditions and unpredictable weather. There could be last-minute changes to the itinerary beyond our control. The ability to work in a team is an important aspect of our trips.

We have performed a threat and risk assessment for our Annapurna treks. Our trips have a degree of risk. This is part of the attraction of adventure travel and why so many people choose to join this type of holiday. By identifying the hazards we assess the level of risk. We have control measures in place to reduce this happening or to reduce the impact.

Our risk assessment is available to clients on request. We have listed below a summary of the significant risks and hazards identified by us:

- Falls and trips resulting in physical injury eg. slipping on ice or falling off the path.
- Altitude illness including but not limited to AMS, HACE, and HAPE.
- Climatic injuries (dehydration, sunburn, heat exhaustion, hypothermia, or heat stroke). Please note during the months of April and October it will be very hot and humid for the first three days of the trek.
- Crossing a river with no bridge resulting in drowning and/ or a fall.
- Rockfall and landslides.
- Snow and ice avalanches eg. on Thorong La pass.
- Lightning strike.
- Wildlife, pack animals (e.g. donkeys or horses), or stray dogs. Pack animals can knock people off the path. Dogs can attack and bite. Discuss rabies vaccination with your doctor.
- Earthquake.
- Risk of fire in the hotel or lodge.
- Endemic local diseases. Discuss vaccinations with your doctor before departure.
- Physiological injury. Such as heart attack, appendicitis, hernia, toothache, etc. in a remote area.
- Road traffic accidents.
- Flight accidents. Read paragraph "Internal flight".
- Contaminated food and/ or water.

This trip visits a remote area. You are away from the usual emergency services and medical facilities. Evacuation for a serious injury requiring hospitalisation could take up to several days. This delay could impede your ensuing recovery. Helicopters are the usual means of evacuation. They are not always available or hindered by poor weather and flying conditions.

Internal Flights

INTERNAL FLIGHTS IN NEPAL

Flights from Nepal's Short Take-Off & Landing ("STOL") airstrips are dependent on weather. Delays often happen if there is poor visibility or high winds. For our itineraries with flights to or from STOL, we include one extra day in Kathmandu at the end of the trip. This is in case of delays flying back. If the delays are longer we will help reschedule your international flights. There is likely to be a fee charged by the airline for this. You also have to pay for costs incurred in Kathmandu as a result of the delay such as accommodation and meals.

You should read the Foreign, Commonwealth, and Development Office ("FCDO") travel advice for Nepal. For their latest advice take a look at their [Safety & Security section under Air Travel](#). There have been some recent air accidents in Nepal. The European Union has banned Nepalese airlines from flying to Europe. For more information on Nepal's air safety profile take a look at [Aviation Safety Network](#).

ACCOMMODATION

TEAHOUSE LODGE IN NEPAL

While on a teahouse lodge trek in Nepal, there are twin share rooms with common bathroom and a heated communal dining room. We will provide all meals at the lodges and include breakfast, lunch, afternoon tea, and biscuits plus a two-course dinner (soup and main meal) plus up to two cups of hot drinks per meal. We regularly inspect and select the best lodges in each location.

HOTEL AMBASSADOR IN KATHMANDU

We have used [Hotel Ambassador](#) in Kathmandu for our groups since it was rebuilt in 2017. Since then we have received positive feedback on their service and location. This is our first choice hotel for trekking groups in Kathmandu. Rooms are well appointed with a reliable supply of hot water for use in the shower. The windows have double glazing so it keeps the rooms very quiet. They serve an excellent breakfast buffet from 7am to 10am. A sundowner on their rooftop bar and restaurant called Foreign Affairs is a must do!
